

Julie Billiard Schools
BEYOND EDUCATION. BEYOND EXPECTATIONS.

January 18, 2021

Dear Families, Faculty, and Staff,

In an effort to remain fully transparent and keep our school community safe, we want to share that a Julie Billiard School Lyndhurst student has tested positive for COVID-19. **Because the student has not been in school since last Thursday, there has been no exposure among our students, faculty, or staff.** The case came from community spread and is isolated to the individual. Due to [HIPPA and FERPA](#) guidelines, the identity of this individual is protected. We ask that you do not speculate or share information about this individual.

What's Next?

- The person diagnosed is isolating until they are no longer infectious.
- The school is deep cleaned each evening and sanitized throughout the day.
- More than ever, it is incredibly important that all students, faculty, and staff adhere to our [health and safety protocols](#) so that we can continue to offer a safe space for our kids to learn.
- To keep cases to a minimum, please check yourself (or your child) for symptoms before coming to school each day. Additionally, if you or your child is experiencing symptoms of COVID-19, keep your child at home from school and avoid other activities around other people.

While Julie Billiard Schools has performed nightly deep cleanings, adhered to social distancing guidelines, sanitized high-touch spaces between use, and followed all health and safety protocols, there are inherent risks when entering a communal building such as a school, which may result in being exposed to COVID-19. We ask for your understanding and cooperation as we navigate this situation.

Gratefully yours in mission,

Lannie Davis-Frecker, Jodi Johnston, and Jason Wojnicz

Visit our [COVID-19 Resource Center](#) for announcements, resources, and information.
